## Staples Launches Computer Recycling Program in Puget Sound *Clean Up the Environment While Helping Local School Districts*

---

- What:** Staples Computer Recycling Program
- When:** April 22 – May 8 during regular store hours
- Where:** Participating Staples store locations (*see list attached*)
- Cost:** \$10 donation to benefit Puget Sound-area school districts (*see list attached*)

**Details:**

In support of Earth Day, Staples is kicking off a Computer Recycling Program at 21 Puget Sound-area store locations to provide a safe and convenient way to properly dispose of used desktop computers, monitors and notebook computers.

The program encourages the public to bring in used computer hardware to participating Staples locations April 22 – May 8 for safe recycling, led by Envirocycle. A \$10 suggested donation will directly benefit local school districts selected by customers from a list available at their local Staples stores. In appreciation for supporting this environmental initiative, Staples will present computer hardware recyclers with coupons good for \$10 off their next purchase of \$40 or more in store and \$30 off next purchase of \$150 or more at [www.staples.com](http://www.staples.com).

Unused electronics, or 'e-waste,' is among the fastest growing waste streams, due to growing sales and rapid obsolescence of these products. Personal computers can pose significant environmental and human health threats if improperly disposed. These products contain lead and mercury, among other potential health hazards.

With 15 years experience in electronics recycling, Envirocycle, Inc. ([www.enviroinc.com](http://www.enviroinc.com)) is one of the country's largest recyclers of electronic equipment and CRT glass.
